Description

Now available – 2015 Azimut 80 Flybridge.

Commissioned by her experienced first owner, this yacht was specified with numerous upgrades that set her apart as one of the finest examples of the model. Designed by Stefano Righini and built in Italy, she blends timeless elegance with modern performance. Powered by twin MAN V12 diesel engines delivering a total of 3,600 horsepower, she reaches speeds of up to 30 knots. Manoeuvring is effortless with bow and stern thrusters, while zero-speed fin stabilisers ensure comfort both underway and at anchor. Two upgraded KOHLER generators provide reliable support for all onboard systems.

Her interior features dark wood joinery paired with light furnishings, creating a clean, modern contrast. Expansive windows flood the saloon with natural light, while accommodation includes a full-beam master suite, VIP cabin, and two spacious guest rooms. The galley can be enclosed for crew privacy, ensuring flexibility for both private and social use.

Outdoor living is a highlight, with a flybridge hardtop, dining for eight, sun loungers, and a secondary helm station. The cockpit flows seamlessly into the saloon, the bow lounge offers a private retreat, and the hydraulic swim platform makes tender operations simple.

Professionally maintained by a dedicated captain and crew since new, this yacht is presented in pristine condition with a meticulous service record. Available immediately, she is perfectly suited for owners who value entertaining and stylish cruising.
