Description

Now Available – Princess Y85

The 2020 Princess Y85 combines modern design with practical comfort, offering a well-balanced mix of performance and lifestyle features. Designed by Bernard Olesinski and Pininfarina, she embodies modern craftsmanship and luxury.

Powered by twin MAN V12 engines (1900hp each), delivering a cruising speed of 24 knots and a top speed up to 33 knots. Equipped with FIN stabilizers, ensuring smooth and stable journeys at sea.

As you step on board, the main deck welcomes you with panoramic windows and a spacious saloon. Multiple lounge areas and a flexible galley arrangement make this level ideal for entertaining or relaxed family living. The galley can be enclosed with a sliding door, allowing full privacy for the crew when required.

Below deck, the yacht accommodates up to eight guests across four beautifully appointed en-suite cabins. The full-beam master suite amidships is a sanctuary of space and light. The VIP cabin forward features a large double bed and walk-in wardrobe. One double cabin and one twin cabin (convertible to double) complete the guest accommodation. Two crew cabins sleep up to three crew members, including one with bunk beds.

The flybridge is designed for al fresco living and entertainment: Large dining table opposite a well-equipped wet bar. BBQ grill, fridge, icemaker, and bar stools. Expansive aft sunpad and surrounding seating. Luxurious jacuzzi at the heart of the flybridge, offering an unparalleled experience for guests

This Princess Y85 comes fully equipped with upgraded air conditioning, watermaker, bow thruster, additional generator, hydraulic swim platform for tender or jet-ski storage, sun canopy at the bow, and an extendable electric bimini on the aft flybridge.

Recently serviced and presented in a ready to go condition, she is **ready for immediate handover**. Contact us today to arrange a private viewing!
