Description

2022 Galeon 400 Fly | Located in Hong Kong

Built in 2022 and currently available in Hong Kong, this Galeon 400 Fly is an example of modern yacht design. Powered by twin Volvo Penta D6 engines with only 340 hours, she offers a blend of performance and sophisticated style.

The interior features a bright, contemporary saloon designed to maximize natural light, creating an open and airy atmosphere. Below deck, the layout includes two well-appointed cabins and two heads, providing comfortable accommodations for overnight stays or weekend hosting.

On the flybridge, guests can enjoy seating and a dedicated wet bar—perfect for taking in the sea breeze. The aft cockpit provides a shaded dining area, while the hydraulic swim platform offers access to the water.

The standout feature of this yacht is its "Beach Club Mode." The innovative design allows the saloon and cockpit to open fully, while expandable balconies significantly increase the deck's footprint. This setup is ideal for owners who value seamless interaction with their guests and a close connection to the ocean.

This yacht is ready to sail. Please contact us today to arrange a private viewing.
